Why This Will Change Your Life!

What I have found with my clients over the past 20+years is that when you line up;

SOUL desire + High Vibe Emotional Energy + Inspired Physical Action + Clear Soul-led Strategy + Aligned Implementation...

It equals === Abundant Profitable RESULTS (in business, money, love, well-being)

So implement my guidance and you will begin to head in the right direction for your abundant results and success manifesting more money, increased profits and high value clients.

- Jane

I'M NOT LIKE OTHER COACHES

My name is Jo Warwick and I have been a psychotherapist, an energy healer & spiritual teacher, author and above all a soul-led business woman.

In fact over the last 29 years I've spent ;

- 10 years working as a Director of Business Development, Sales and Marketing.
- 20 years as a conscious practitioner of the law of attraction
- Built 4 successful businesses in a range of industries.

- And wrote & published 4 books on manifesting & living in harmony with the law of attraction.

For the past 5 years I have focused more and more in my coaching business & life on wealth manifestation and high value attraction & performance helping other women stop wasting their time and energy doing the wrong things blocking their attraction powers and desires.

But let's be clear I've failed a lot too!

I have in the past repetitively devalued myself, my skills, energy and wasted a lot of time for a while, getting frustrated and disheartened.

Confused as to why my online business didn't seem to function and grew as successfully and effortlessly as my bricks and mortar businesses, but I was able to generate 6/7 figure sums for other companies and individuals.

Only when I was finally ready to acknowledge that I had changed and was teaching one thing and doing another!

That I was trusting & implementing traditional business methods instead of using my own successful spiritual, feminine, law of attraction based methods as the driver! So to stop you wasting any more sacred time and precious energy, out of alignment with your truth and holding off your abundance, banging your head against an invisible glass ceiling I wanted to share what I had learnt.

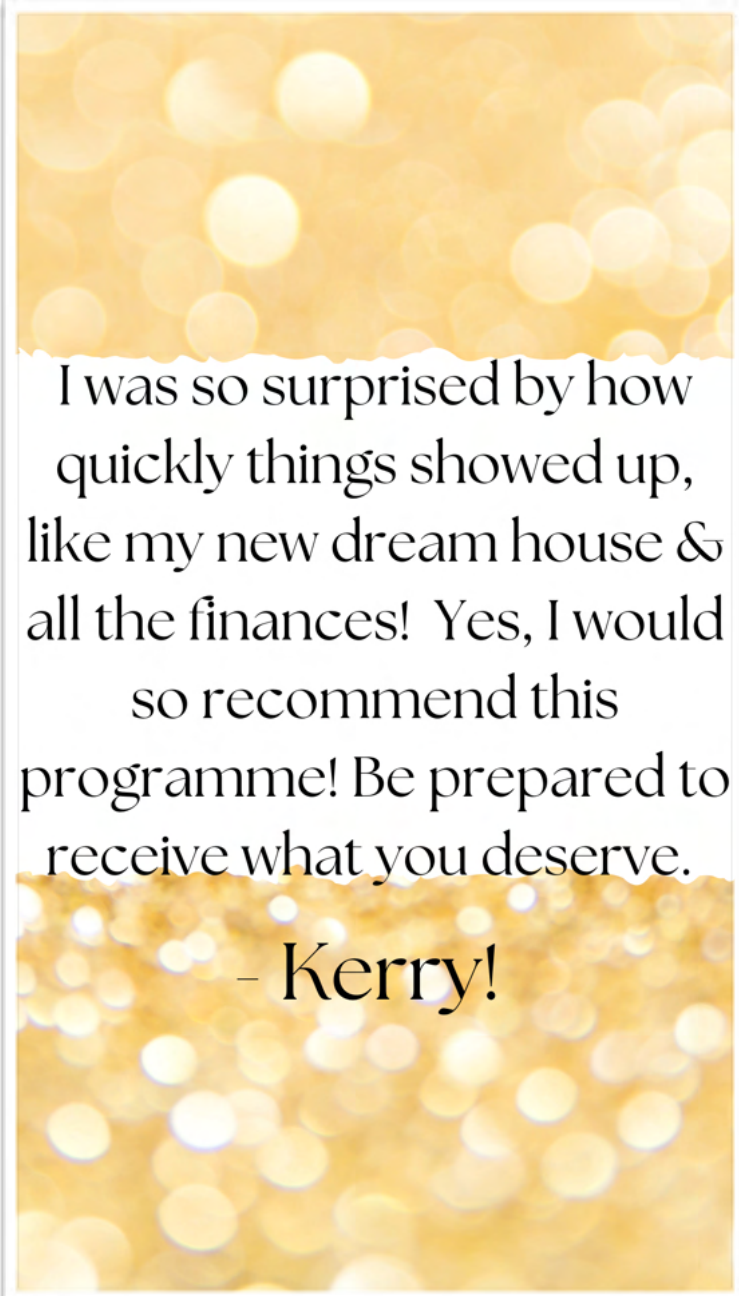

The main reason you are going to love this is because I am solution focused and I'm rather down to earth as a spiritual woman. I love clarity!

You will get very clear of the problems that have held you back when it comes to your business growth, & financial success and keeping your soulful self intact and honoured.

With over 10,000+ hours of listening to the same problems over and over again, from women just like you, there is a constant pattern as to why you are lacking in either high value clients, money and left fed up and exhausted - not in flow!

This is not just another guide of empty promises! It is my intention to demonstrate that I know what I am talking about and if you follow the steps then you too can make a fast and effortless shift in your current situation and get crystal clear on your next steps.

I am the creator of the "Rich, Sexy & Free" programme. Founded on my own methodology which enables you to have an abundance of Riches (Money, Love & Energy) Resources & Relationships, as a passionate, creative, soul-led woman. Deeply supported in the physical & material by the Universe, as you express your soul through your business — without self sacrifice and sabotage.

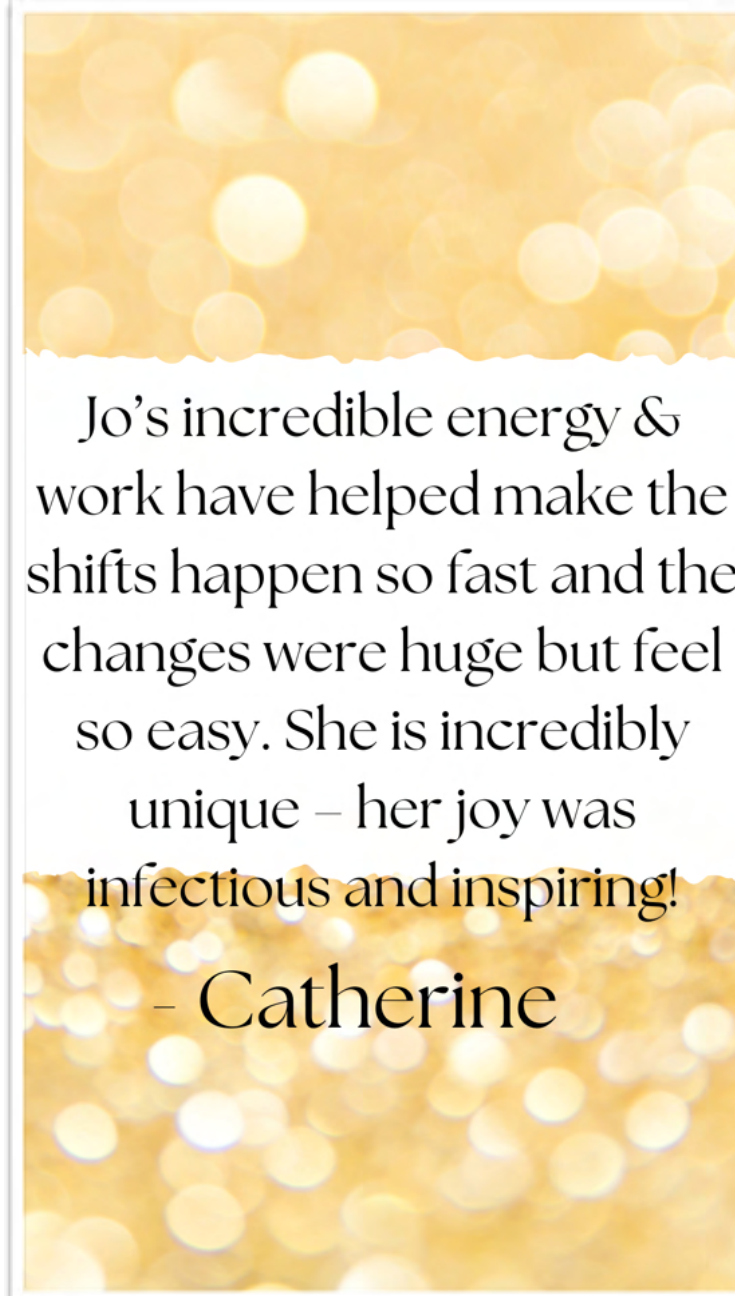

I was so surprised by how quickly things showed up, like my new dream house & all the finances! Yes, I would so recommend this programme! Be prepared to receive what you deserve.

MY RICHES & RAGS STORY!

Ever since I was pro-sportswoman training for the Olympics, I have been obsessed with best practice, performance psychology and conscious magnetic attraction for creating your reality and success.

Although you'll be surprised to know I was never a high achiever at school! But I was the good girl who did her best to try to fit in with everyone! I was chosen for the sports teams, lead roles in the school musical & I was also bullied and totally failed my A levels.

For as long as I can remember I've been a Magnetic Powerhouse of attraction for my desires - the big and the small - I expected them to show up and they did.

But I was just as good at attracting what I didn't want, until I finally discovered WHY & HOW I was doing it to myself and self-sabotaging!

From 17, I magnetically manifested my way to training with 3 Olympic medalists, living with the head of the British Eventing Team, a dream horse who was my best friend, working with owners & sponsors and fast-

After that first career ended due to a serious riding injury, that I had manifested to change my life & finally escape the abuse. I transferred my skills & talents to commercial Business. I was a natural at selling, marketing and business development - it was part of my makeup to make others feel good (*I was a good girl remember*).

I was potent and on fire, and once again fast tracked my way through start-ups & medium sized Tech companies to become a Business Development/Sales Director.

I was having so much fun (with the odd bit of jealousy) weaving in and out of working for others and creating & growing several physical & online companies of my own with failures and successes, but generating good revenue and supporting employees.

In my final role, before another life metamorphosis to become a Psychotherapist & energy healer I was as a Director in an event marketing company! — It was the ultimate playing in business! I attend sporting & social events around the world, mixing with celebrities, Olympians, luxury brands.

Reaching the HIGH and the it crumbled...AGAIN!

I was awesome at making others a lot of money, growing businesses and attracting incredible opportunities for myself - but I also had a chronic good girl GLASS CEILING & hindering MONEY story of RICHES to RAGS!

As soon as I attracted prosperity & success I would LOSE IT — leaving me with debt & second jobs to get by!

This pattern of pain and bliss went on for decades even as I became a Psychotherapist with 8 years of personal therapy, as well as investing in business coaches, books, training — so much money, time & effort!

Until I FINALLY unlocked what NO OTHER Business/ money coach was ever able to give me...

What had been the KEY to my extraordinary successes - had also been the cause of my failures...

That being said, here are The 7 Reasons Why You Are NOT Attracting High-Value Clients & Manifesting Financial Freedom (& how to fix it fast with grace)

REASON 1 - CLOSED TO THE FLOW

Money, Wealth & Abundance...

Money is energy and can flow as easily as water, if we allow it. Beginning as consciousness, a belief and idea that forms into an exchange for goods and services.

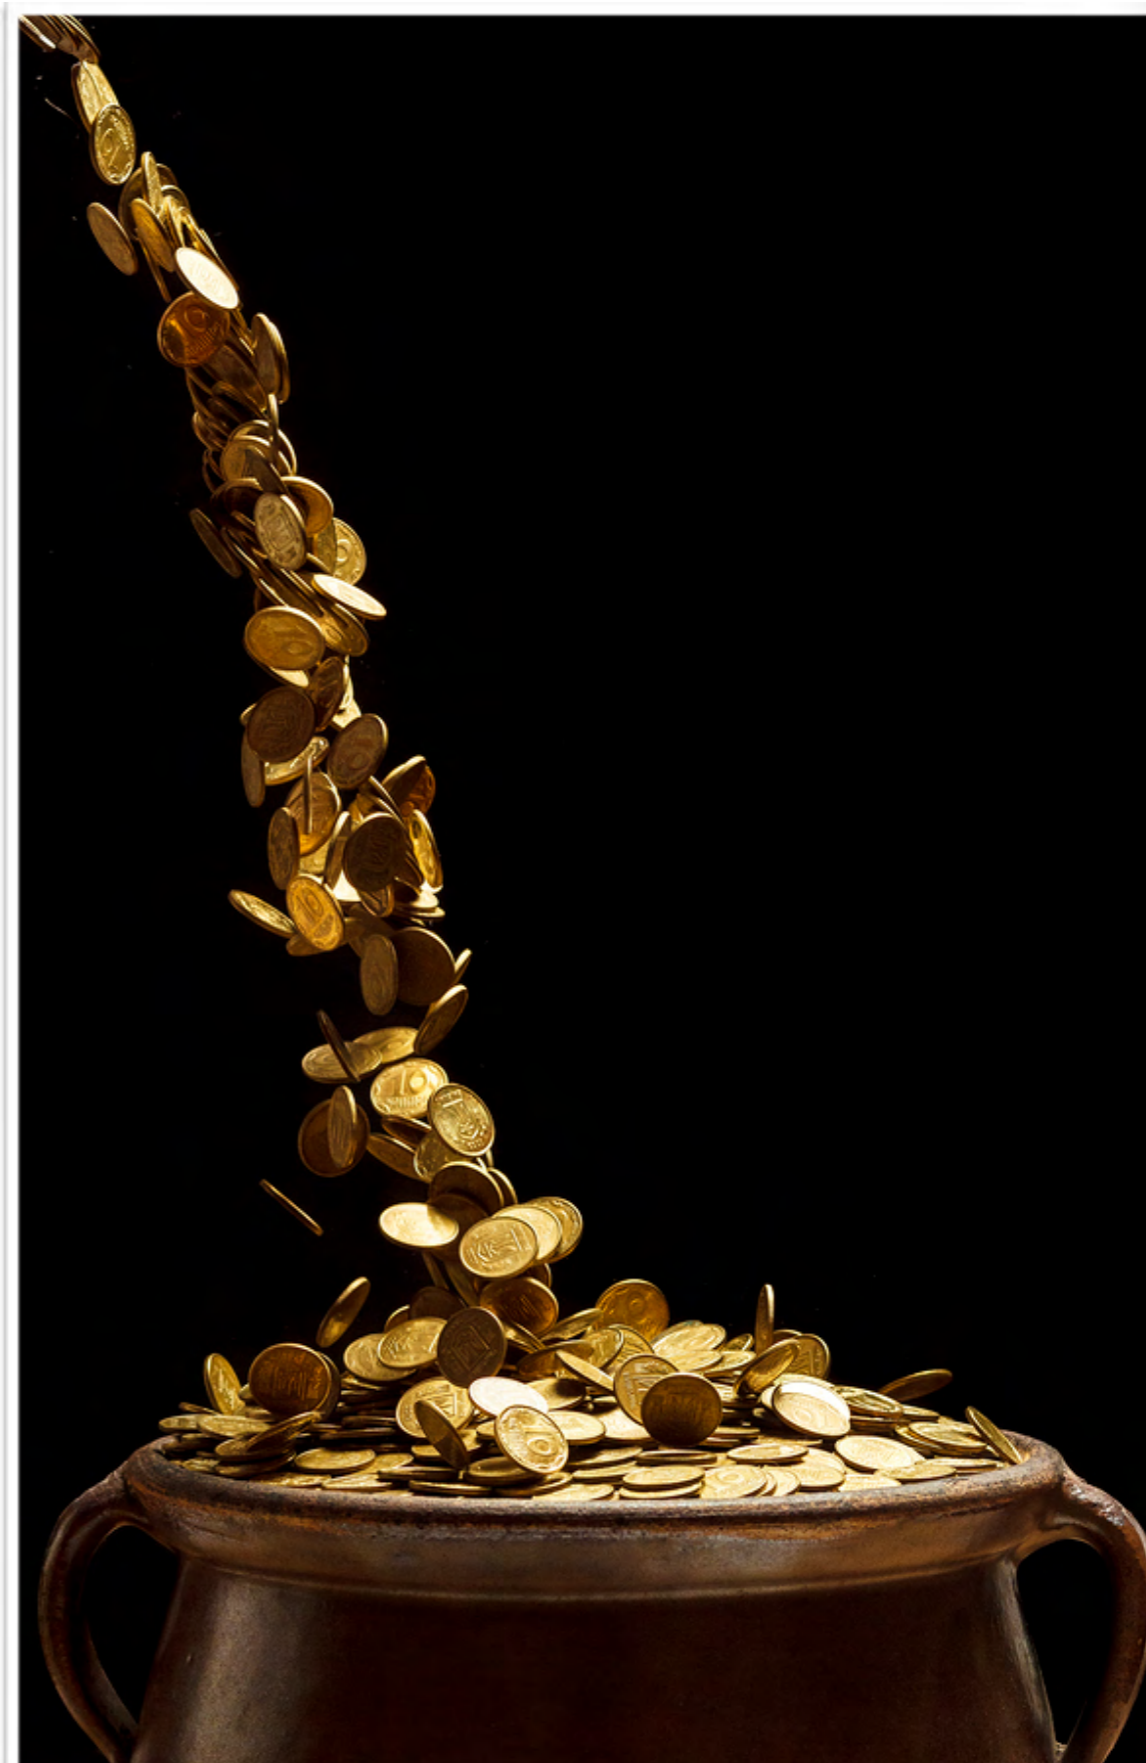

Manifesting as digits, paper, coins, notes and bars of gold. Its value only as we perceive it. We all live in a material world of money that is exchanged for all that we want and desire. But it must be allowed to FLOW .

It must be allowed to flow to us unhindered and like air be breathed in, acknowledged as effortlessly and easily as the abundance of air we know is always richly available and ready to be replenished in any moment.

It must be allowed to be expelled, shared and released as easily a breathing out. Circulated and the economy of money that pours through your life, business, home and relationships.

However if we hold issue with the easy & effortless flow of money and shift to being closed and unreceptive to it's FLOWING nature the flow of money dwindles and dries up like a river damned up stream.

Our job is to learn how to open & relaxed in a receptive & faithful state to the natural abundant flow of money!

REASON 2 - BARGAIN BASEMENT

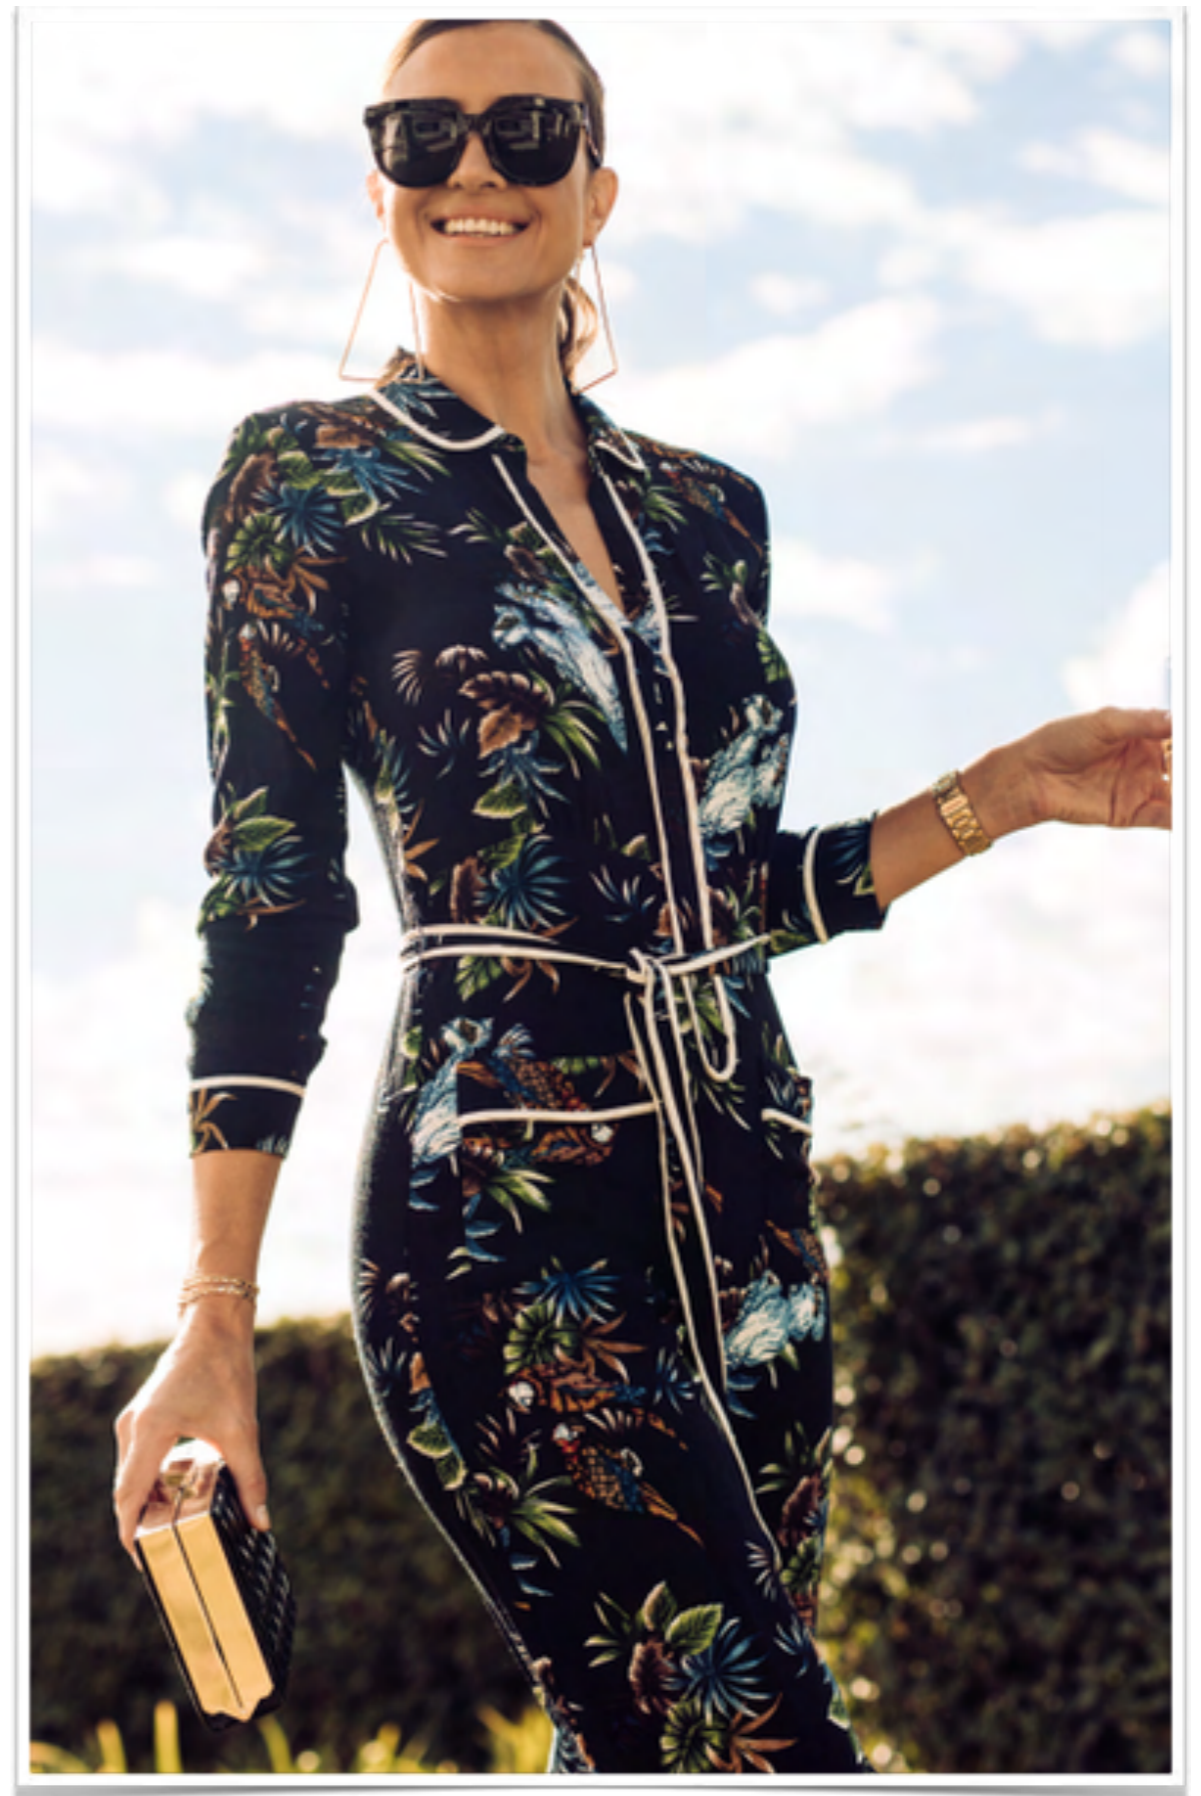

Flipping From Poverty Frequency To A Rich Abundance Frequency

If you are attracting low value clients who wont pay, cant pay or are making it difficult to get paid — you are attracting them because you are giving off a low value poverty vibe.

FACT #1 Law of the Universe is we attract back the frequency we put out. We all have a magnetic mind/body/energy resonance that is either in poverty or prosperity mode and we communicate this to the universe through our thoughts, beliefs and emotional state — it then reflects you back in your manifestations.

On some level you believe you are Bargain Basement instead of a High Value, Luxury, Abundance Queen.

Don't like what you are getting? Want to attract higher value clients and manifest increased income you must flip into Prosperity mode and up level your abundance frequency. By flipping the mindset and money talk from poverty, low value and fear to over flowing, ever flowing riches. Shifting the body and emotional state from lack to luxurious comfort and aligning your mind & body with your soul, your divine self and Divine WEALTH state.

REASON 3 - A HARD MONEY STORY

Does It Have No Value if It Comes Easily?

Most of our ancestors & grandparents experienced hardship, war, poverty and struggle. Always taught to believe that if you work hard for it, you will appreciate it and therefore give more value to it — but that was because there wasn't as much to go around.

Its good to know the value of things. However this concept can also keep you trapped not wanting to break the mould of our family story around money.

Believing that if mum and dad had it hard, so must I, like some genetic code passed down.

Yet the truth is we have NEVER been so abundant, rich & prosperous as a nation. So healthy, well resourced and profitable as a human race and the western world never more so.

There never has been so much money circulating the globe and available to tap into and the Universe is ever expanding and so will continue to create more as it does with all energy, creativity and ideas.

Believing it must be hard to create, attract, manifest and have, no longer fits this evolving world. We ALWAYS get what we feel and believe so if we choose to believe that it is hard to get, the law of attraction will make it so!

REASON 4: AFRAID OF THE OVERWHELM

Won't Handle Abundance, Riches & High Value!

Will it be too much! On some level we can be afraid we will not be able handle or manage having an abundance of riches & resources. Afraid that money equals power and more importantly freedom. So to allow an abundance of wealth, increased ease & value and attracting high value from others, will shift & change who we are as individuals and women and the life we currently live will no fit.

Scared we may go crazy with the freedom & power of it or drown in the responsibility it can bring. Even though good people, can do good things with good money...

Most women will instead holding themselves back, keeping small, limiting their income and wealth to a safe range they can control. Whilst waiting and hoping for more without having to actually have it and deal with it. Denying themselves, saying they are not worthy when all they need is to learning new skills for living& manifesting abundance — like taking an advanced driving course to give confidence.

REASON 5: NO SECURE MONEY VEHICLE

The Power Of A Soul-Aligned Strategy and Biz System

Money can flow to you in a thousand ways, but waiting for it to simply manifest out of thin air does not bare consistent results, so can leave you feel insecure.

It is better then to have more focused method for money to flow through - like a vehicle for fuel to flow through. One option is where the vehicle is a job exchanging time for money, which can offer a sense of security but wealth flow is limited, like having fuel tank limitations.

An alternative that allows for money to increase & flow is an investment vehicle which includes stocks bonds & properties where we can expect higher results for the fuel we invest in - so money is making money. Yet it is often a slower drive with unseen & uncontrollable risks.

The most powerful money vehicle is having a strong, clear soul aligned strategy within a high-value service & information based business system. A money vehicle is plugged in & powered up by the Universe, like an electric sports car that delivers consistent results and Joy!

REASON 6: THE GREAT SHAMEFUL SIN!

Is Having Money Bad Or Divine?

Our personal perception of money and its value is everything. We get what we believe, and will be right, no matter what!

Do you want to be right if your belief is keeping you separated from financial security & freedom, whilst giving your material manifesting power away to others. All because you have accepted on some level a doctrine that — Money is a Sin, dirty and having plenty of it turns you rotten & bad!

You know that you are living and breathing this limiting programme in your mindset and magnetic emotional frequency because you feel money shame. Bad & ashamed for wanting riches & having abundance, ease & luxury. Wrong for putting your prices up, charging more for your services & claiming a higher value for yourself!

It is our choice.... Shame & sin is an illusion we can learn to drop, shift, release & claim a higher frequency. Accept the truth in our soul that Money is sacred, high-value Divine & Abundance good, right & natural for us!

REASON 7: FEMININE FINANCIAL FREEDOM

Co-Dependency! You're Not Allowed!

Historically women have it hard when it comes to wealth creation and financial freedom, because we are riddled with negative beliefs and lingering social conditioning from the past. Ideas that women cannot & should not be wealthy and financially independent — but if we do we are either a cold, heartless bitch, a spinster or widow.

So naturally engrained to deeply fear we will be abandoned, unloved & alone if we try, because Money is supposedly a man's job. This fake co-dependency story has deep roots in our mothers & grandmothers, where they did everything else, sacrificed, slaved, worked hard, gave all they had and yet it was never enough. Never enough to worthy, to be valued highly & richly rewarded. Marrying was the norm to be provided for & secure — like a child.

What may once have had truth is now holding modern women prisoners. Beliefs that can be released and a magnetic Soul-Aligned abundant manifesting frequency unlocked to empower feminine financial freedom!
