the Hustle

10 Tips To Effortless Sales Cheatsheet!

Dear Visionary Entrepreneur, Coach, Lightworker, Business Sensation,

Thanks for downloading.

I'm Jo Warwick and clients often come to me frustrated & scared that their business will fail or they will simply have to give up & get a job because they can't figure out their biggest problem – Sales and increasing revenue.

Fed up & deeply disappointed with inconsistent sales, limited low-cost sales or difficult clients who make the whole experience so unpleasant it no longer seems worth it!

Their business dream is fading even though they've tried traditional business coaching and have done what they are told, yet still they haven't got the satisfaction of more revenue, better clients and increased value.

Instead, their business all feels clunky, requires a lot of hard work and lacks the easy flow of sales & results with the ideal clients they need and deeply desire.

The truth is they know they are leaving money on the table and not serving the clients they wish to support. — all because they're missing the secret sauce & skills to making higher value and effortless sales...

But the good news is, after building four successful businesses and working with visionary entrepreneurs, coaches and business owners all over the world, as well as having 30 years of sales & law of attraction experience I've developed my METHOD...

— to instantly shift your sales success so you not only attract but close the deal with your ideal clients. So you are not only increasing revenue month on month but getting much more pleasure from your business and the sales process.

Let's start with these top 10 tips for instantly improving your sales results...
EFFORTLESSLY!

10 Tips To Effortless Sales Cheatsheet!

1. **Success Sales Mindset:** An anxious and rushed mindset and behaviour will always end in NO SALE. Trust is essential to any sale and it's impossible to trust someone who is not relaxed and confident in what they are saying & have to offer.
2. **Success Mindset:** You must truly BELIEVE in the solution you are selling to a defined problem. It's that simple!
3. **Manifesting Mindset:** Be that which you want to attract! Visualise your positive outcome, feel it, see it and then choose to have faith in your success in its success.
4. **Successful Sales Seduction:** See the sales process like a dance: it's your job to lead it clearly & make your buyer feel good in the process.
5. **Solution Clarity:** Confusion makes a poor leader and is unattractive to the buyer! You need to be laser clear about the problem you are solving & the product you are selling as the solution. Confusion in mind, creates confusion in your body & energy, and causes confusion in your speaking, language and writing.
6. **Pricing Clarity:** Be crystal clear about the pricing of your product/service etc – you must feel comfortable discussing it openly and confidently.
7. **Curious Sales:** Ask, Ask, Ask – and ask some more! Uncover the pain points & desired outcomes of the potential buyer. Keep asking how, what and why questions and they will tell you what they need. Can you give them what they need?
8. **Be Aware:** Remember you have two ears and only one mouth - speak less and listen more and you will clearly hear and see the buying signals!
9. **Closing 1:** Be relaxed. Be clear. Be simple. Reaffirm the problem, their need and your solution. Say the price & own it confidently.
10. **Closing 2:** Learn not to be afraid of holding silence. Sit, wait & be quiet – and breathe, whether you're in person or over the phone. Allow the buyer to take action.

10 Tips To Effortless Sales Cheatsheet!
